

WADIE BOUMEDIENE

Full-Stack Web Developer | Data Science Engineering student

+213660865034 • w_boumediene@estin.dz • wadie.vercel.app • Skikda

Summary

I build fully functioning websites and web apps using a variety of technologies. Currently navigating the world of Data Science as an engineering student at ESTIN in Bejaia, Algeria.

Education

Engineering School of Computer Science & Digital Technology - Béjaïa

AI / Data Science

09/2021 - 07/2026

Skills

Javascript • ReactJS • NextJS • TailwindCSS

ExpressJS • Firebase • MySQL • MongoDB • Prisma • Typescript

Experience

Student Projects (Various School Projects)

September 2022 – Present

- Collaborated with teams on multiple academic projects, employing a wide range of project management methodologies mostly Scrum and Agile method.
- Enhanced team communication through regular meetings, clear task delegation, and use of collaboration tools.
- Developed problem-solving skills and adaptability while working on interdisciplinary projects. Thanks to the very strict Engineering School environment, I developed a strong work ethic and the ability to thrive under pressure while managing complex projects.

Internship in Sonatrach

Summer 2024

- Interned in Sonatrach, Algeria's leading oil and gas company
- Worked alongside skilled professionals, whose expertise and dedication provided crucial learning opportunities.

Courses and Certificates

The Web Developer Bootcamp - Colt Steele

Internship Certificate - Sonatrach

Associate Data Scientist in Python - Datacamp (ongoing)
